

## ABOUT US

CCAR Industries is a community-based, 501(c)(3) nonprofit organization that serves individuals with disabilities in their homes, the community and at work in East Central Illinois. We were founded in 1969 by a group of committed parents with the shared goal of providing quality services to children and adults who did not attend the local schools.

CCAR Industries program participants are primarily funded through the Illinois Department of Human Services funds and miscellaneous grants. We rely on charitable donations from families, businesses and our community to cover our many unfunded service costs.

“Everyone was polite and welcoming, always there for us when needed and always had an answer when I had questions. My daughter had a great time.”
